風水／风水

Basic feng shui principles for bedroom, office, and living room!

By Salia Nahshal, Michaela Gary & Ellie yan

## *Feng shui* (风水)

*Feng shui* (say: *fung sh-way*), which translates to ‘wind and water’ in Mandarin Chinese, is an ancient Chinese art of arranging objects in a space for harmony and balance.

Feng shui principles can help determine optimal furniture arrangements for harmonious interior design, especially in small living spaces.

To delve deeper into feng shui, select "**Learn More**"; alternatively, opt for "**Start Exercise**" to discover feng shui principles for arranging your *bedroom*.

## *Chi* (气)

*Feng shui* is rooted in the Taoist concept of chi (pronounced: tch-EE) - the vital energy that flows through all things. It revolves around harmonizing yin (darkness) and yang (brightness). Through this balance, one can invite positive *chi* (energy) to enhance health, relationships, fortune, and abundance.

## 5 Key Elements of Feng shui (风水)

Adding or moving one of the five elements—water, wood, fire, earth, or metal—can enhance positive energy (chi) in a room.

### WOOD

Growth  
&  
Vitality

Green  
&  
Teal

### FIRE

Passion  
&  
Energy

Red  
&  
Orange

### EARTH

Stability  
&  
Balance

Yellow  
&  
Brown

### METAL

Precision  
&  
Intelligence

Gray  
&  
Metallic

### WATER

Wisdom  
&  
Abundance

Water  
&  
Dark Blue

## *Feng Shui* Bedroom

Every room within a space adheres to distinct feng shui guidelines.

Today, our focus will be on understanding the principles of *feng shui* applicable to the bedroom.

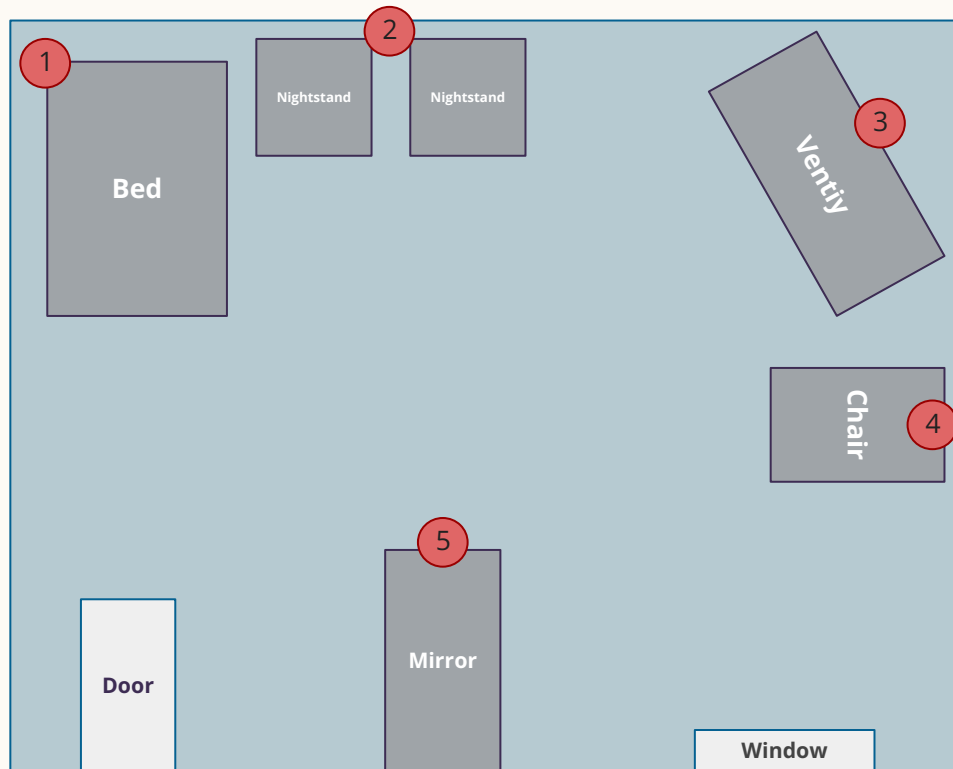

Let's Begin!

The current bedroom layout appears organized, but it **lacks proper *feng shui* design.**

Discover why ⇒

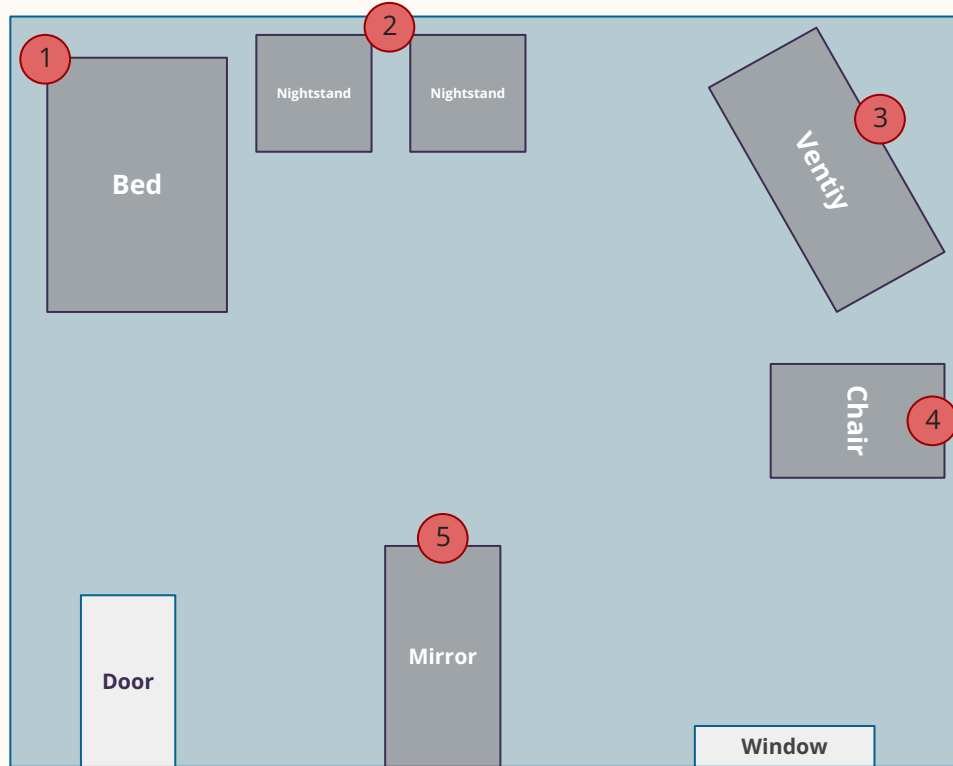

Click the **red numbers** to discover why the current bedroom furniture arrangement lacks good *feng shui* and learn how it can be **optimized for better** *feng shui* design.

**Clarification:** for purpose of prototyping, the revert button is used to allow users to return to this page to click other objects

[Revert](#)

Click the **red numbers** to discover why the current bedroom furniture arrangement lacks good *feng shui* and learn how it can be **optimized for better** *feng shui* design.

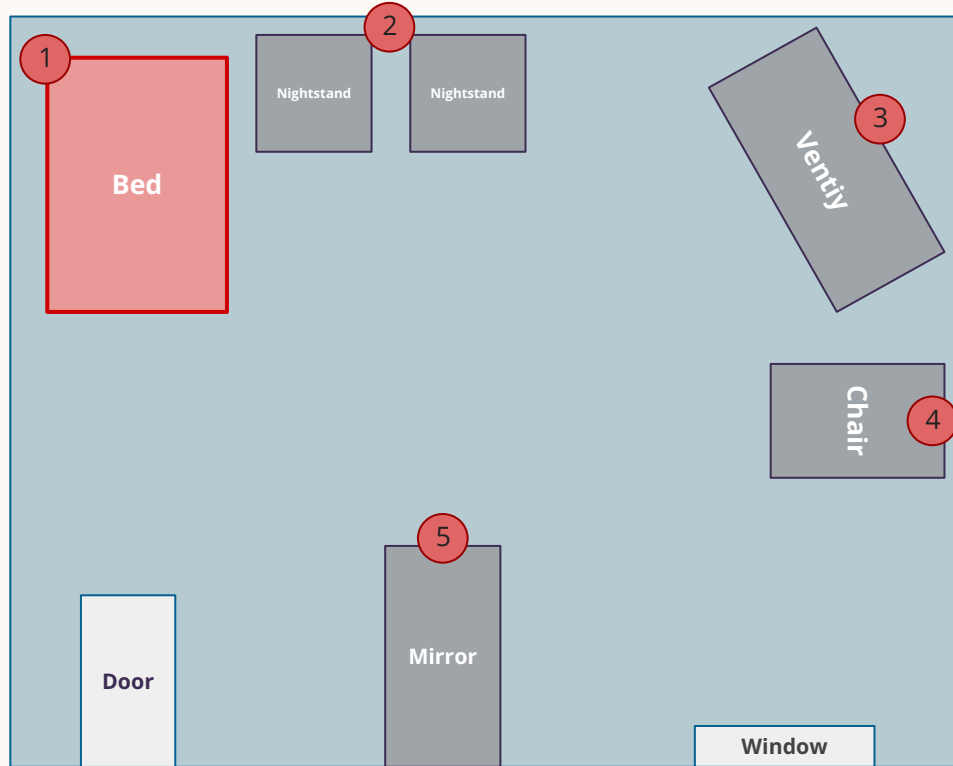

Bed placement **not in accordance** with *feng shui* principles.

1

Avoid placing beds in the "coffin position" where the feet align directly with the door.

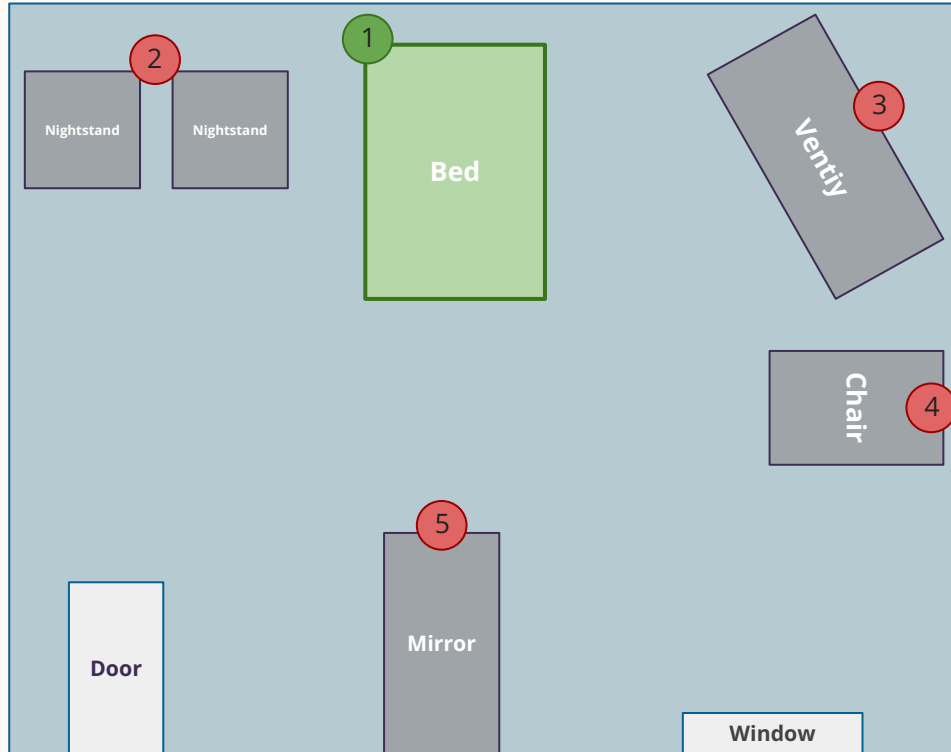

Revert

Optimal Placement

The bed is now **properly aligned** according to *feng shui* principles.

1  
Instead, position the bed in the “**commanding position**” for optimal security and control.

1 **Bed** in commanding position

[Revert](#)[Next](#)

Nightstands placement **not in accordance** with *feng shui* principles.

2  
Typically, we prefer **paired furniture** on both sides of the bed to create **symmetry**, fostering a sense of balance and unity in the room.

[Revert](#)[Optimal Placement](#)

The **nightstands** are now **properly aligned** according to *feng shui* principles.

2  
Instead, place the **nightstands** should be placed on each side of the bed to achieve **symmetry**.

1 **Bed** in commanding position

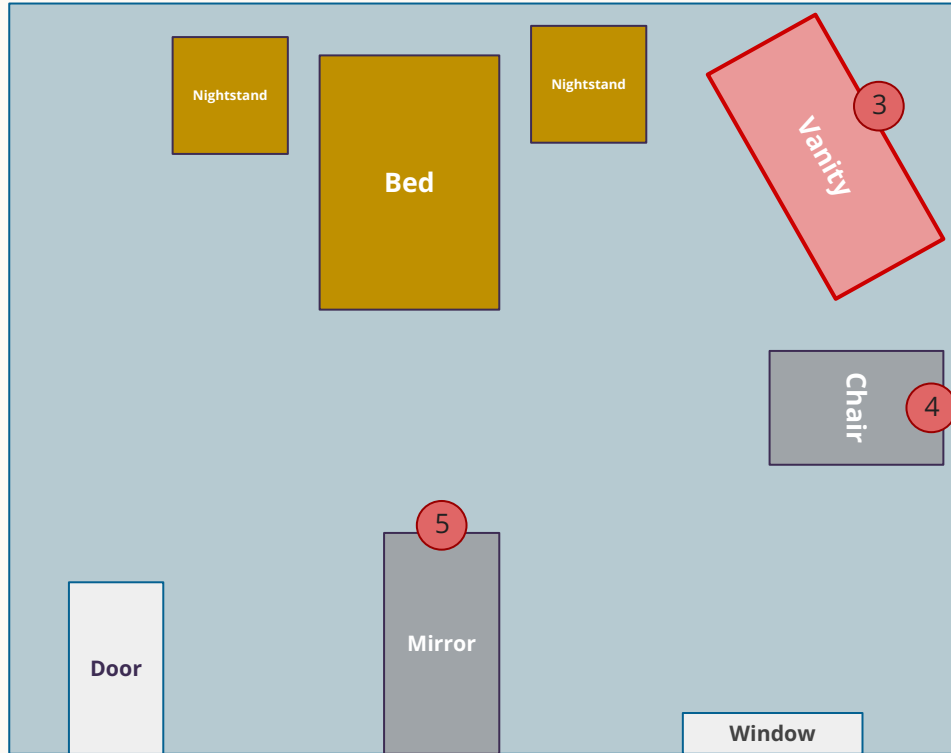

2 **Nightstands** on each side of the bed for symmetry

[Revert](#)[Next](#)

Vanity placement **not in accordance** with *feng shui* principles.

3

Similar to beds, **vanities** should also be placed in the “**commanding position**” within the room.

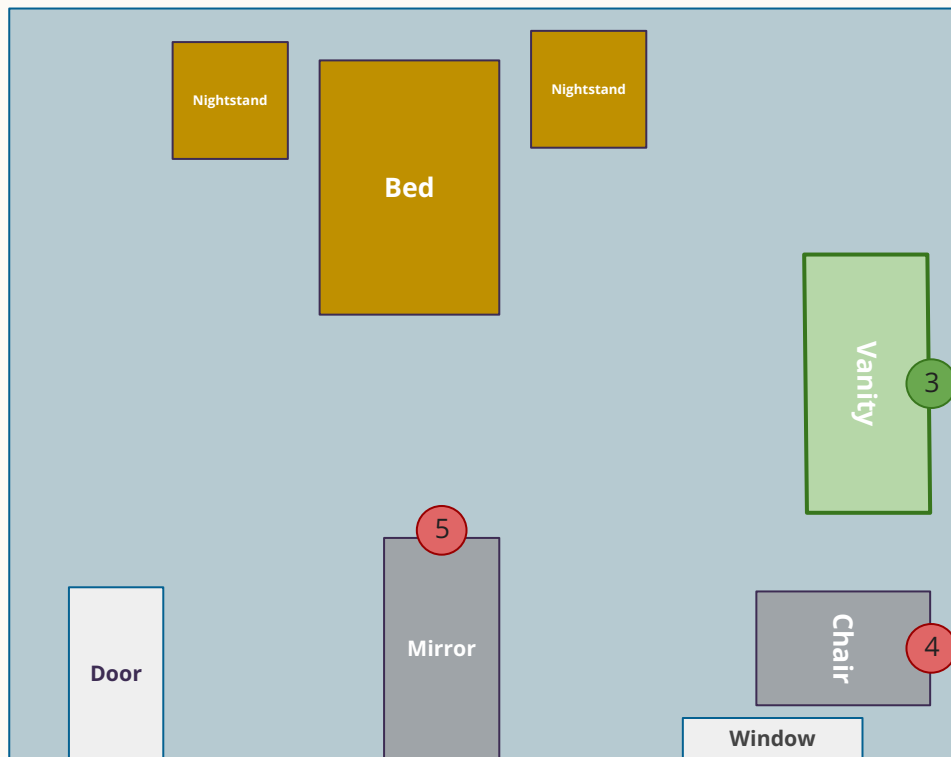

Revert

Optimal Placement

The vanity is now **properly aligned** according to *feng shui* principles.

3

Instead, position the vanity in the "**commanding position**" & refrain from placing it directly opposite the door, as it may disrupt the **flow of energy** in the room.

1

**Bed** in commanding position

2

**Nightstands** on each side of the bed for symmetry

3

**Vanity** in a commanding position, against the wall.

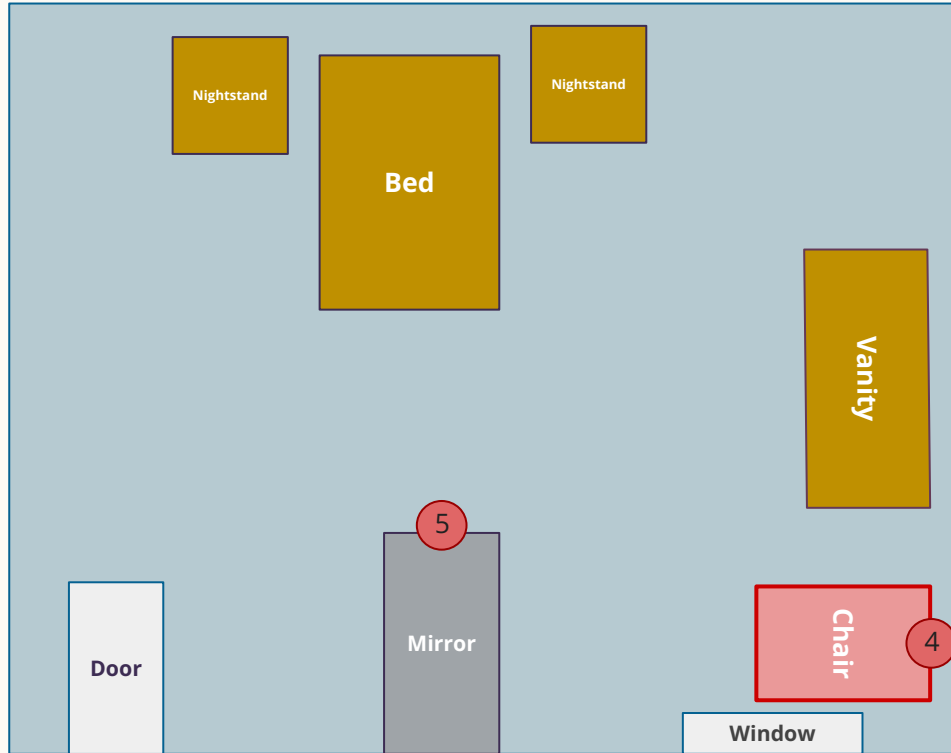

Revert

Next

Chair placement **not in accordance** with *feng shui* principles.

4

Chair directly facing the bed disrupts **energy flow** and may impact **sleep quality**.

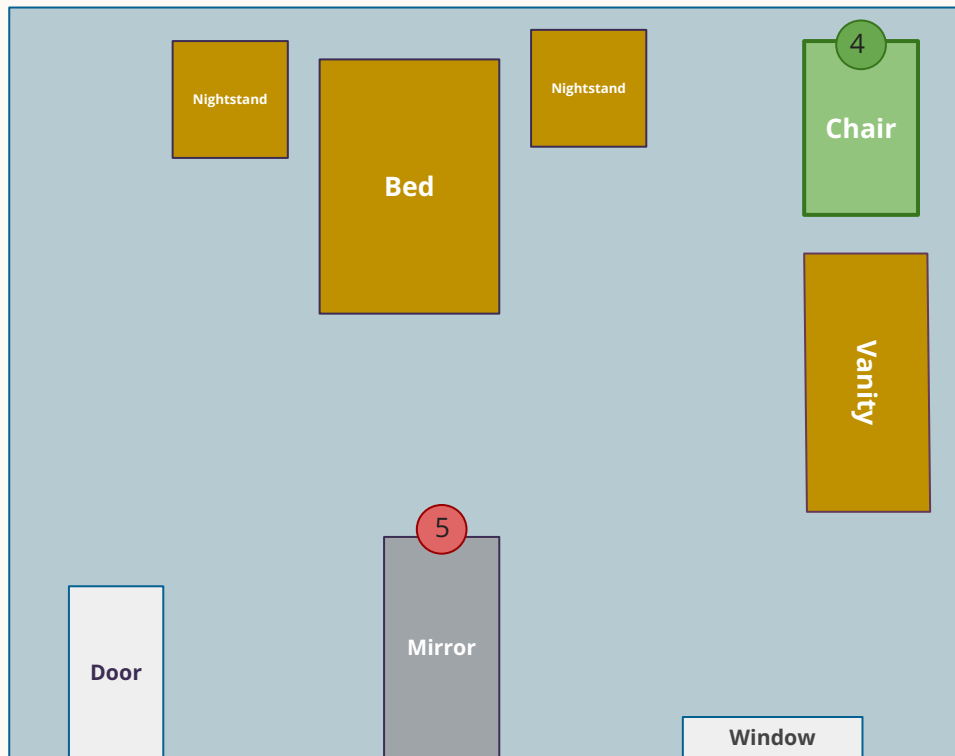

Revert

Optimal Placement

The **chair** is now **properly aligned** according to *feng shui* principles.

4

Instead, place the **chair** at an angle or to the side of the bed to promote a **harmonious flow of energy** and **enhance relaxation**.

1

**Bed** in commanding position

2

**Nightstands** on each side of the bed for symmetry

3

**Vanity** in a commanding position, against the wall.

4

**Chair** should face the door but not directly in line with it.

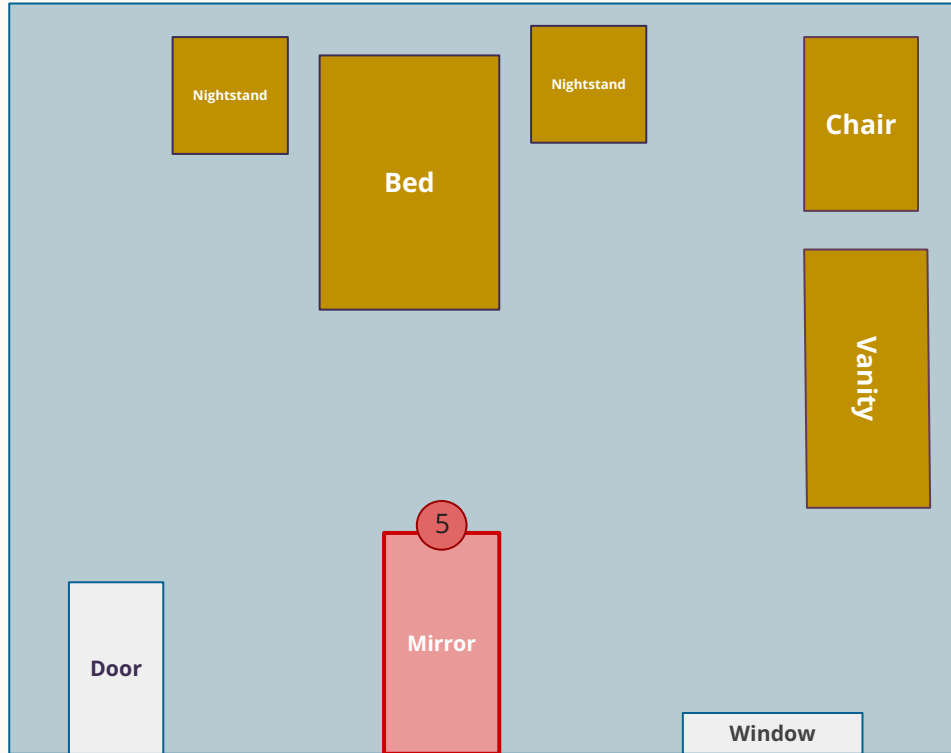

Revert

Next

Mirror placement **not in accordance** with *feng shui* principles.

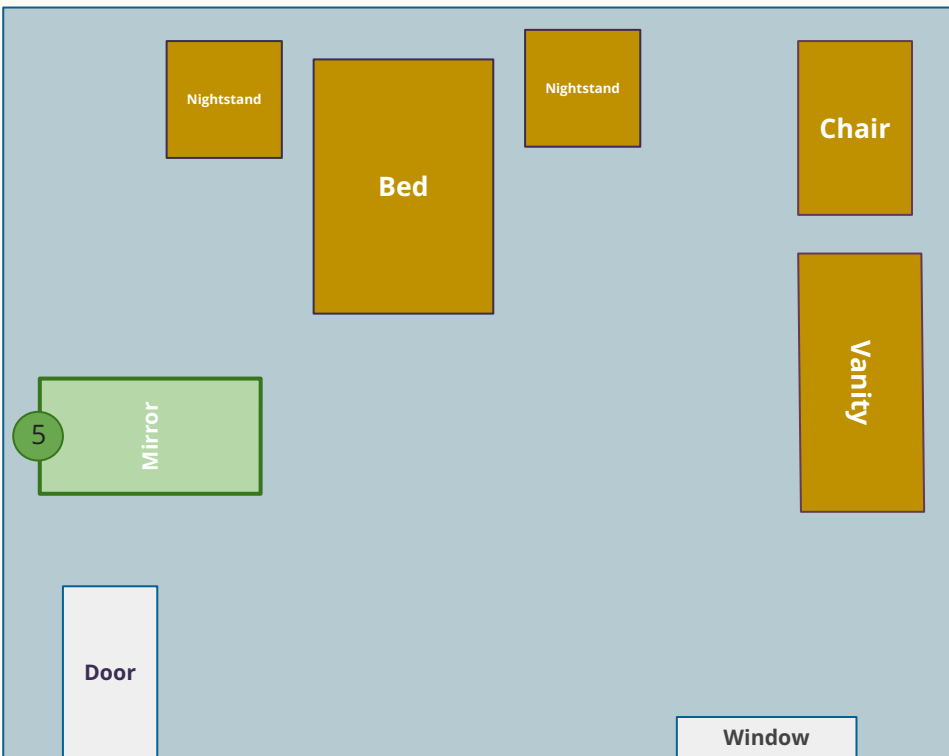

5  
Placing a **mirror** directly facing the bed can cause restlessness and disrupt sleep.

[Revert](#)[Optimal Placement](#)

The mirror is now **properly aligned** according to *feng shui* principles.

4

Position the **mirror** away from directly facing the bed to promote a **peaceful energy flow**, enhancing sleep quality.

1

Bed in commanding position

2

Nightstands on each side of the bed for symmetry

3

Vanity in a commanding position, against the wall.

4

Chair should face the door but not directly in line with it.

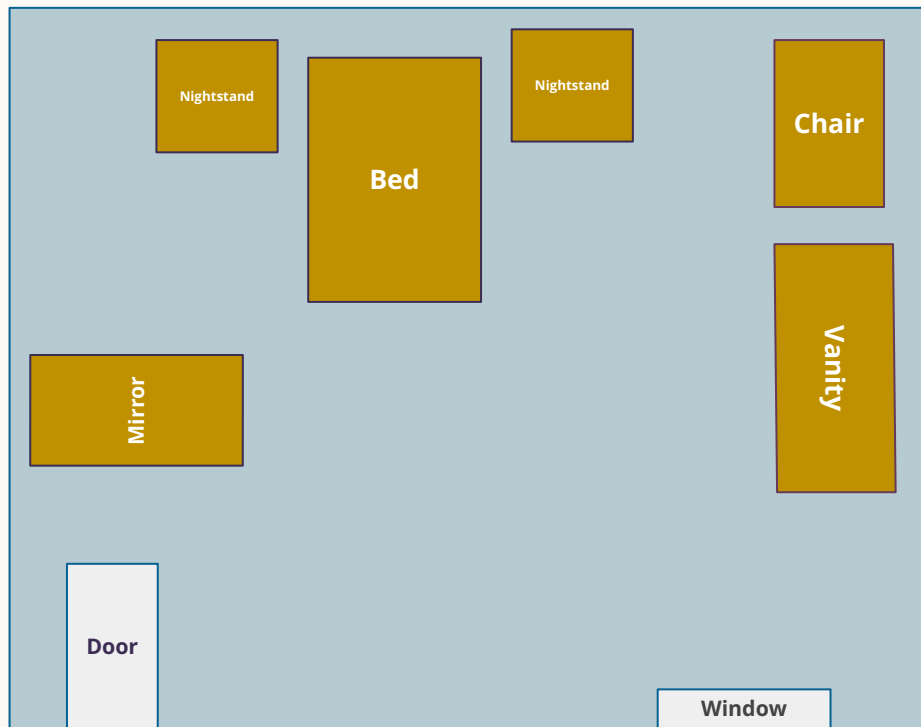

4

Mirror should be positioned to avoid directly facing the bed.

Revert

Recap

## Summary of *Feng Shui* Bedroom Principles & optimized layout

1

**Bed** in commanding position

2

**Nightstands** on each side of the bed for symmetry

3

**Mirror** should be positioned to avoid directly facing the bed.

4

**Vanity** in a commanding position, backed by a solid wall.

5

**Chair** should face the door but not directly in line with it.

# Quiz

---

Your task is to **rearrange the furniture** in the upcoming **bedroom** according to *Feng Shui* principles. Each furniture item will be presented sequentially.

**Prizes:** Arrange furniture by Feng Shui principles to unlock its 5 key elements: Earth, Wood, Metal, Fire, & Water.

**Score:** If you correctly position the furniture piece on your **first attempt**, you earn a point; otherwise, no point is awarded for that specific placement.

Begin quiz!

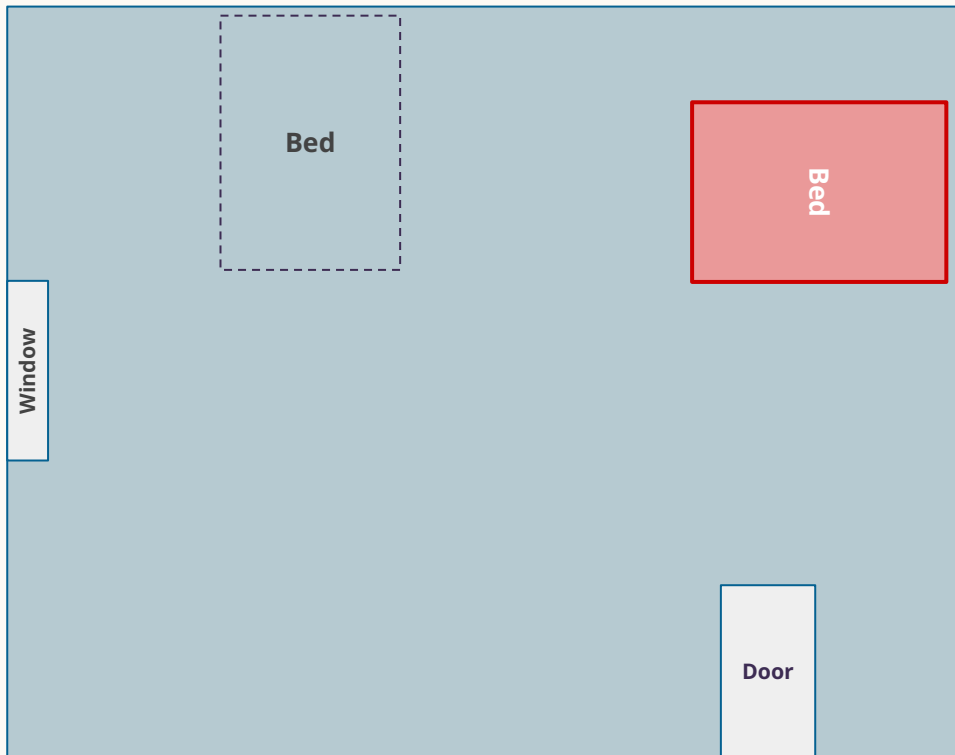

First, drag and drop the **bed** into the optimal position, adjusting its orientation as necessary.

## Prizes

First, drag and drop the **bed** into the optimal position, adjusting its orientation as necessary.

## Prizes

Avoid placing beds in the **coffin position**.

Try again!

First, drag and drop the **bed** into the optimal position, adjusting its orientation as necessary.

## Prizes

Earth

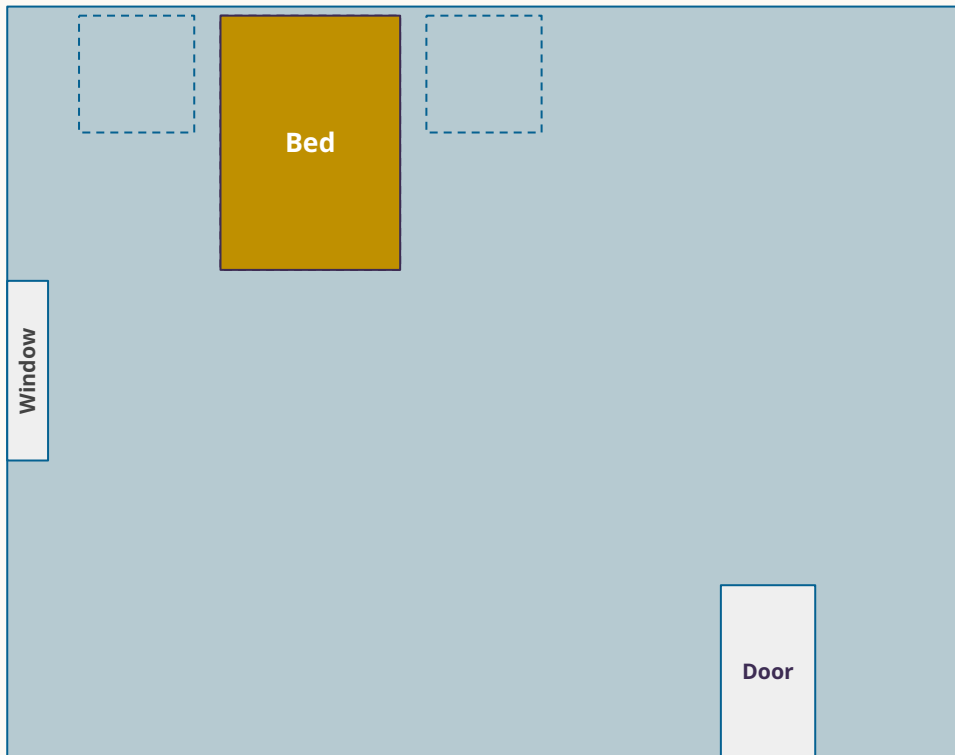

Great! Now the bed is in **commanding position**.

Next

Now, choose the most suitable furniture pieces to place on each side of the **bed**.

## Prizes

Earth

**Clarification:** when implemented, user will be able to select multiple items at once which's why there's a single select button

Nightstand

Nightstand

Lamp

Lamp

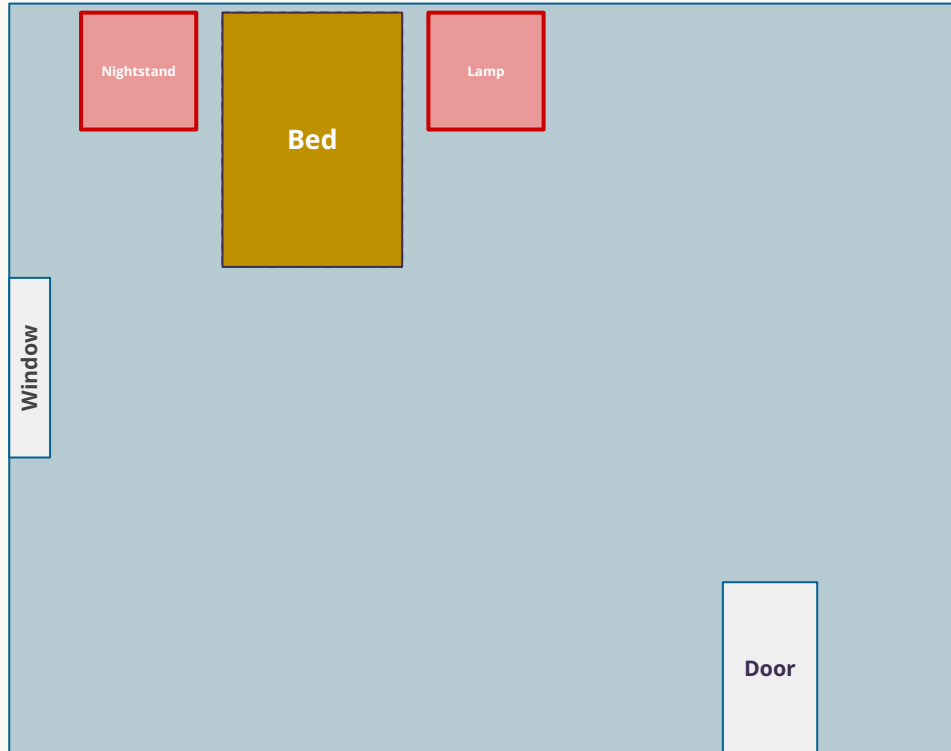

Select

Now, choose the most suitable furniture pieces to place on each side of the bed.

## Prizes

Earth

Pick paired furniture to achieve **symmetry** and **balance** in bedroom.

Try again!

Nightstand

Lamp

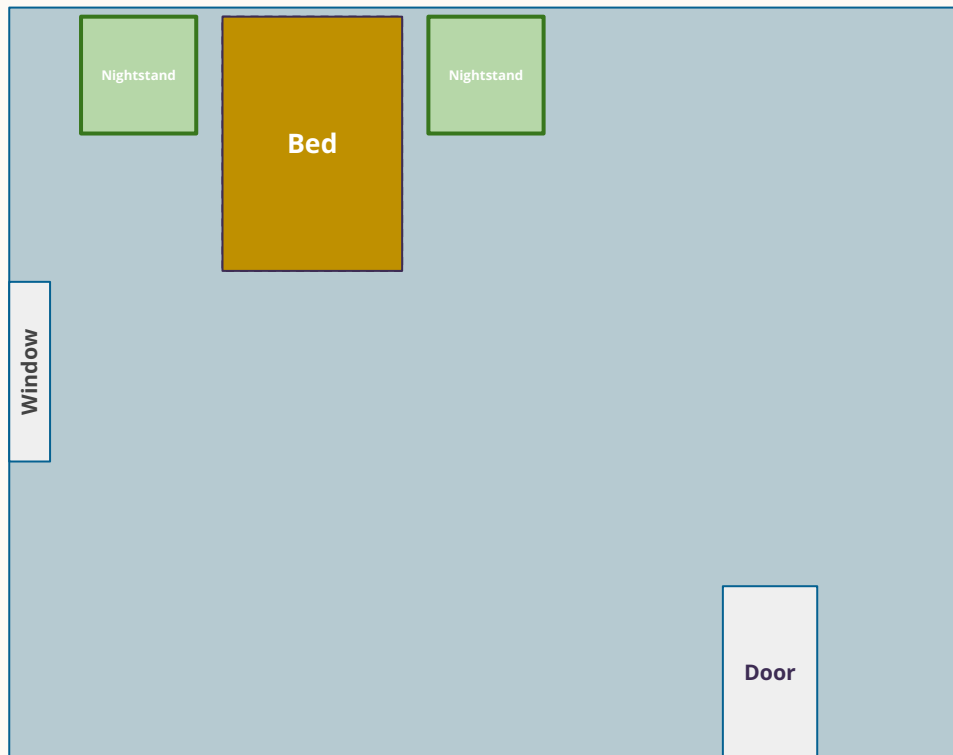

Select

Now, choose the most suitable furniture pieces to place on each side of the bed.

## Prizes

Earth

Wood

Nice! Pairing furniture enhances **symmetry** & **balance** within the space.

Next

Lamp

Lamp

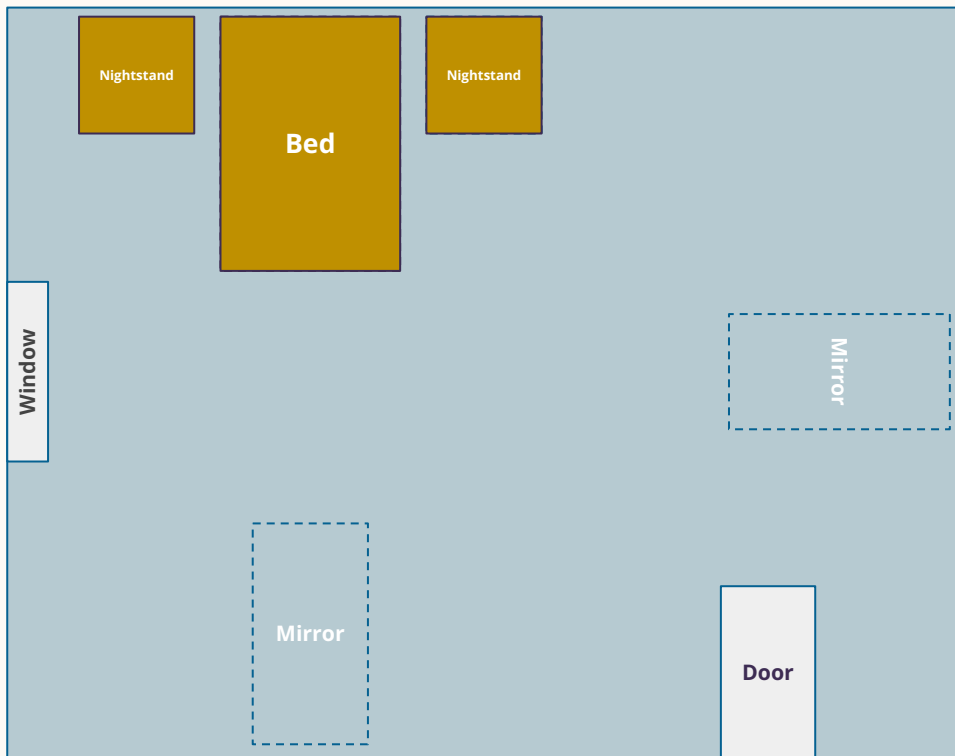

Select

Next, place the **mirror** in the optimal position, adjusting its orientation as necessary.

## Prizes

Earth

Wood

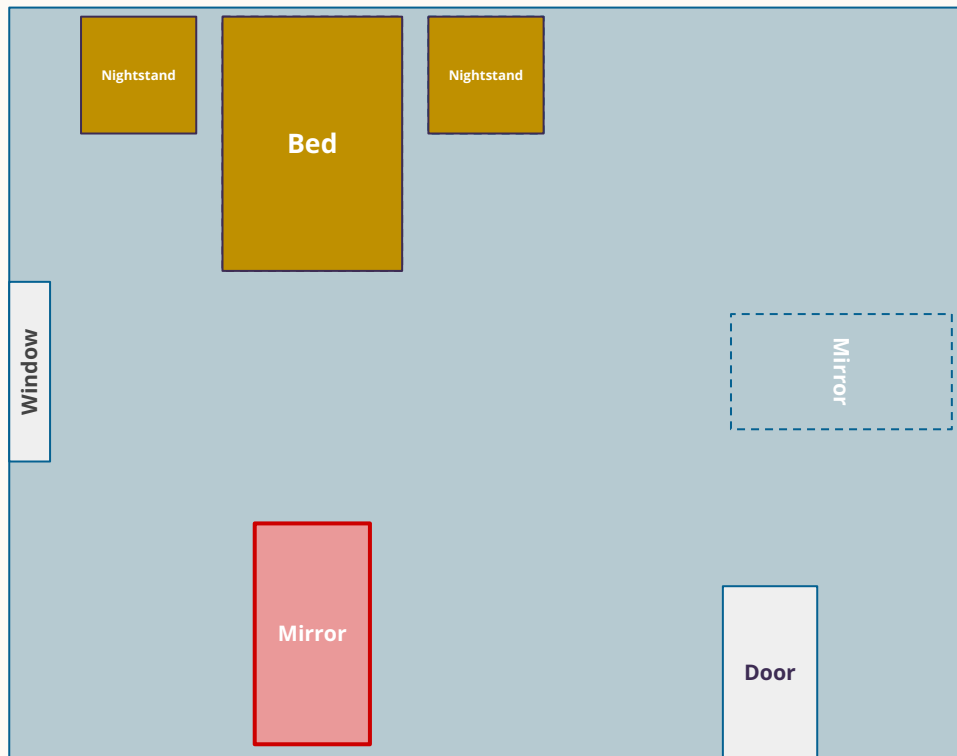

Next, place the **mirror** in the optimal position, adjusting its orientation as necessary.

## Prizes

Earth

Wood

Avoid **mirrors** facing the bed to prevent disruptive **energy** (chi) & promote better sleep.

Try again!

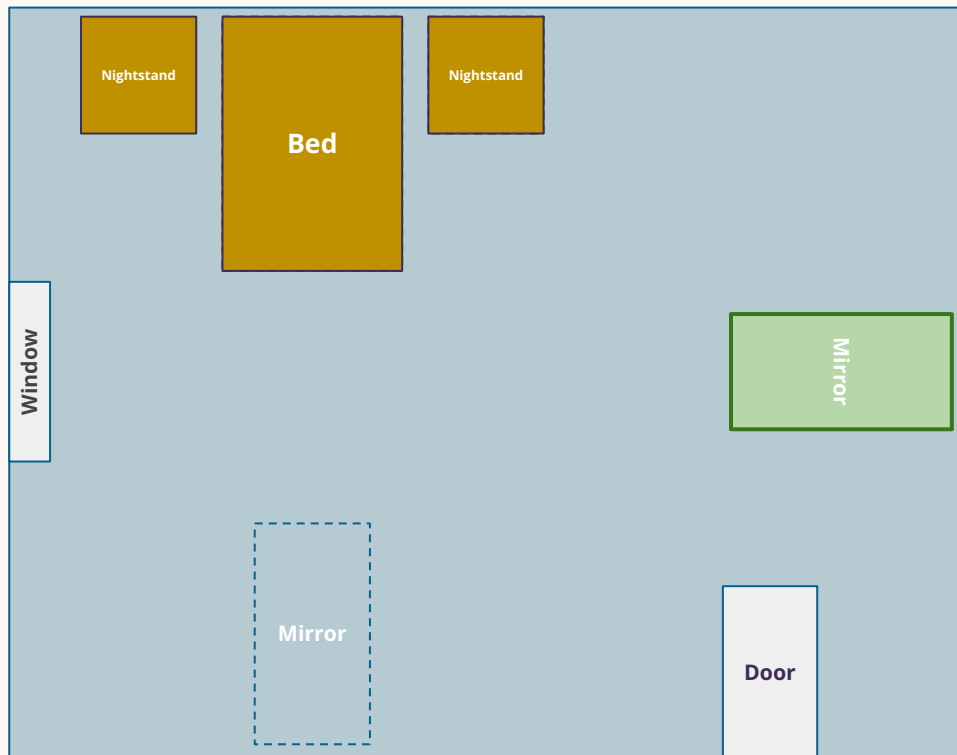

Next, place the **mirror** in the optimal position, adjusting its orientation as necessary.

## Prizes

Earth

Wood

Water

Amazing! Positioning the **mirror** in front of a window **reflects light** and expands the room's **perception of space**.

Next

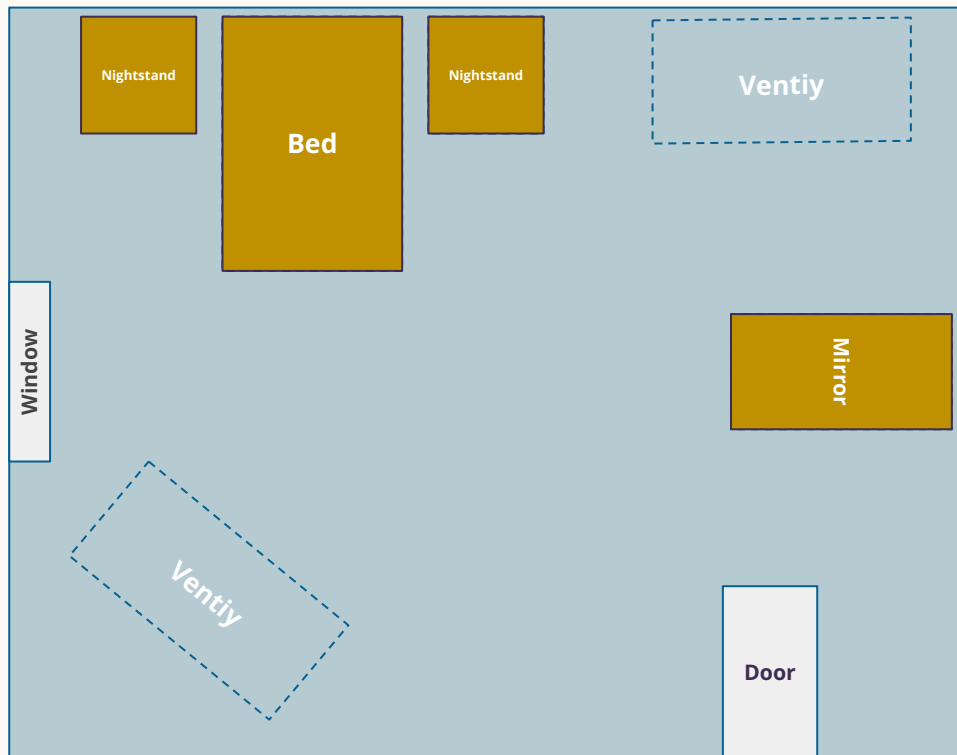

Next, place the **vanity** in the optimal position, adjusting its orientation as necessary.

## Prizes

Earth

Wood

Water

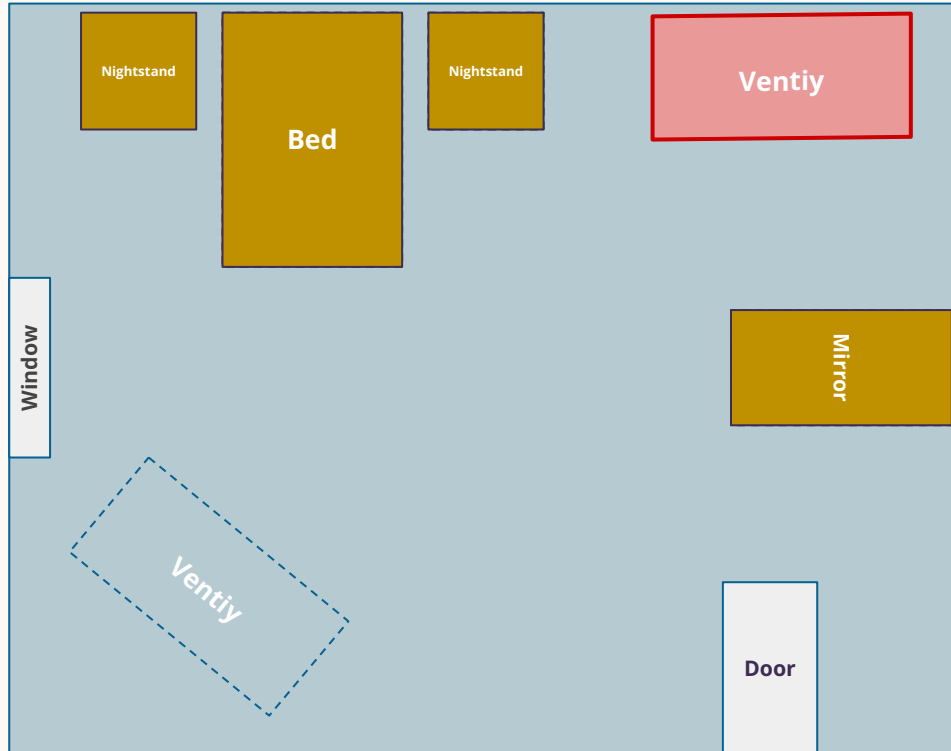

Next, place the **vanity** in the optimal position, adjusting its orientation as necessary.

## Prizes

Earth

Wood

Water

Placing a **desk** in front of the door disrupts **energy flow** & symbolically **blocks opportunities**.

Try again!

Next, place the **vanity** in the optimal position, adjusting its orientation as necessary.

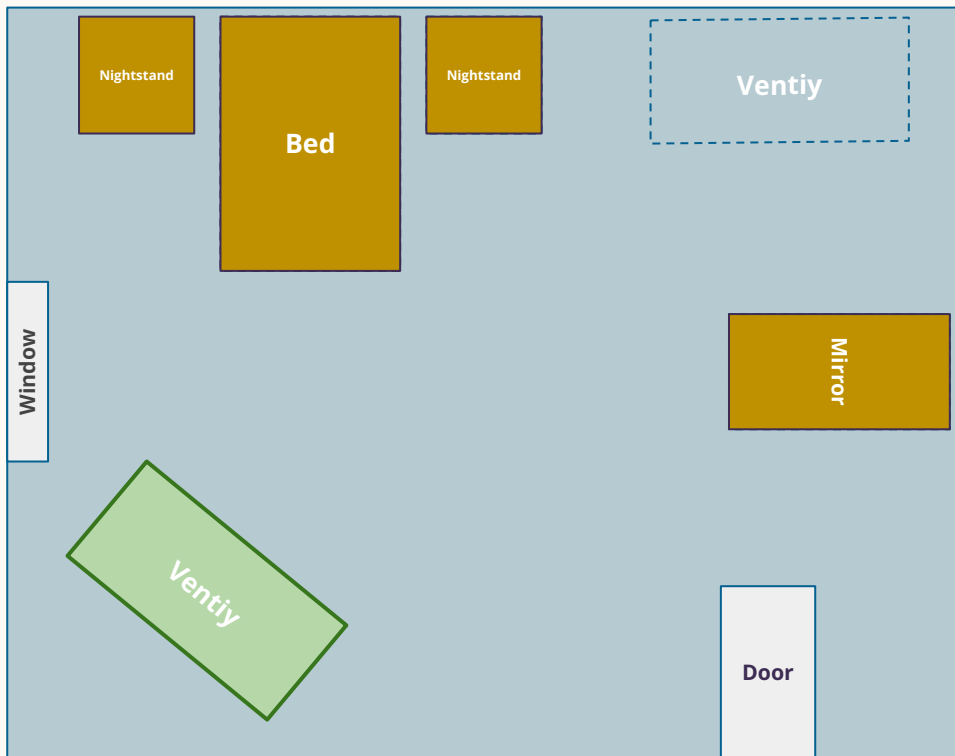

## Prizes

Earth

Wood

Water

Metal

Wonderful! The **desk** is in a command position and is backed by a solid wall, promoting support.

Next

Finally, place the **chair** in the optimal position, adjusting its orientation as necessary.

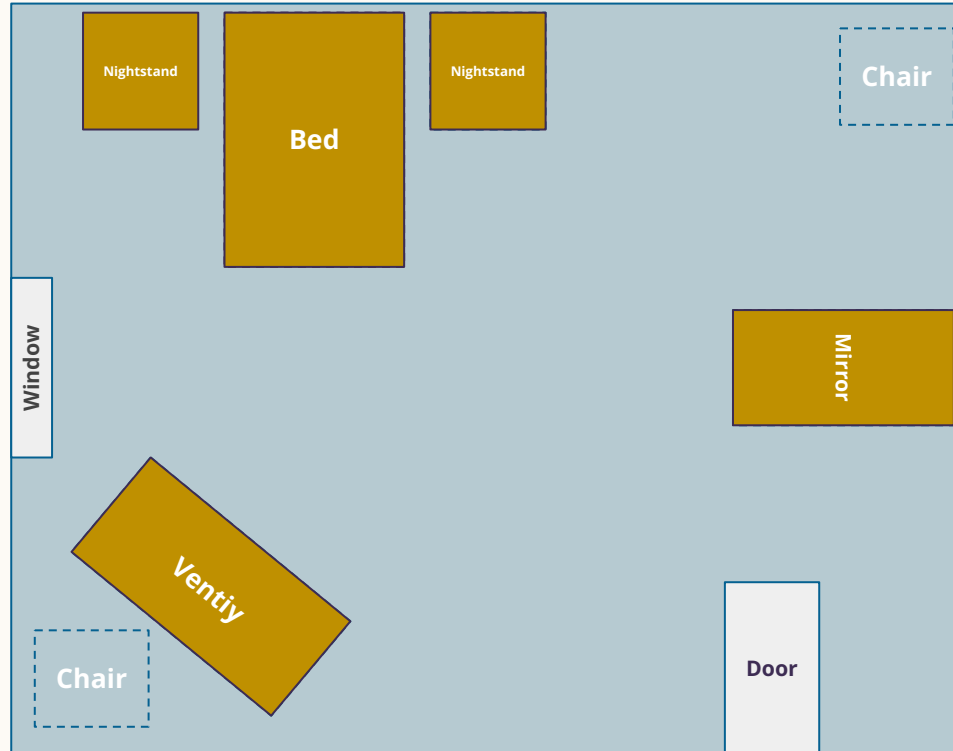

## Prizes

Earth

Wood

Water

Metal

Chair

Finally, place the **chair** in the optimal position, adjusting its orientation as necessary.

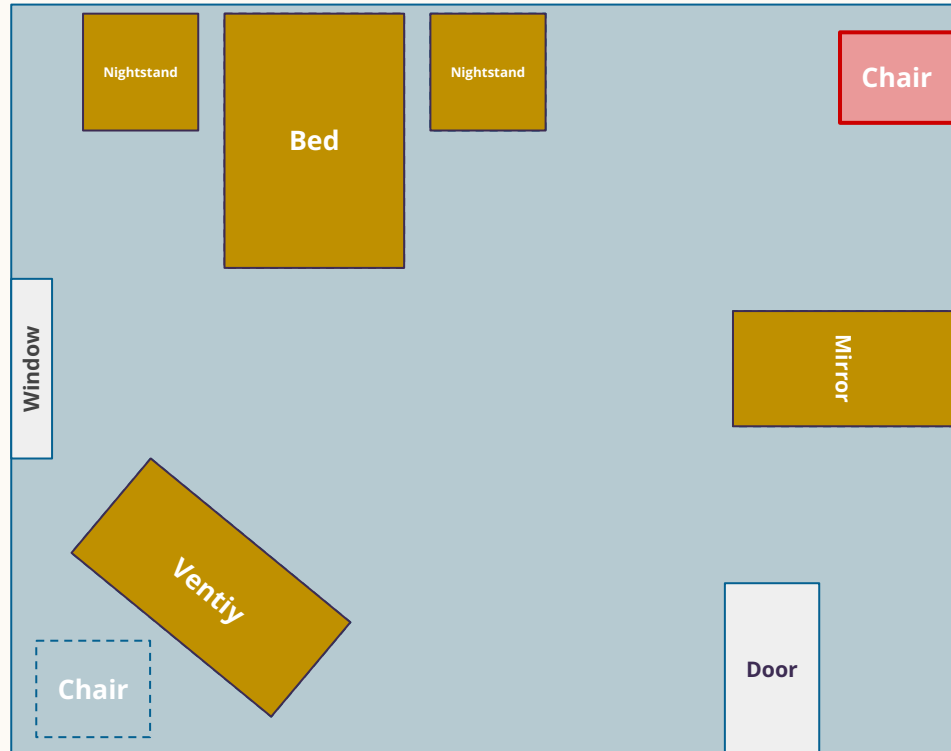

## Prizes

Earth

Wood

Water

Metal

Placing a **chair** in a corner restricts **energy flow** & can **hinder relaxation**.

Try again!

Finally, place the **chair** in the optimal position, adjusting its orientation as necessary.

## Prizes

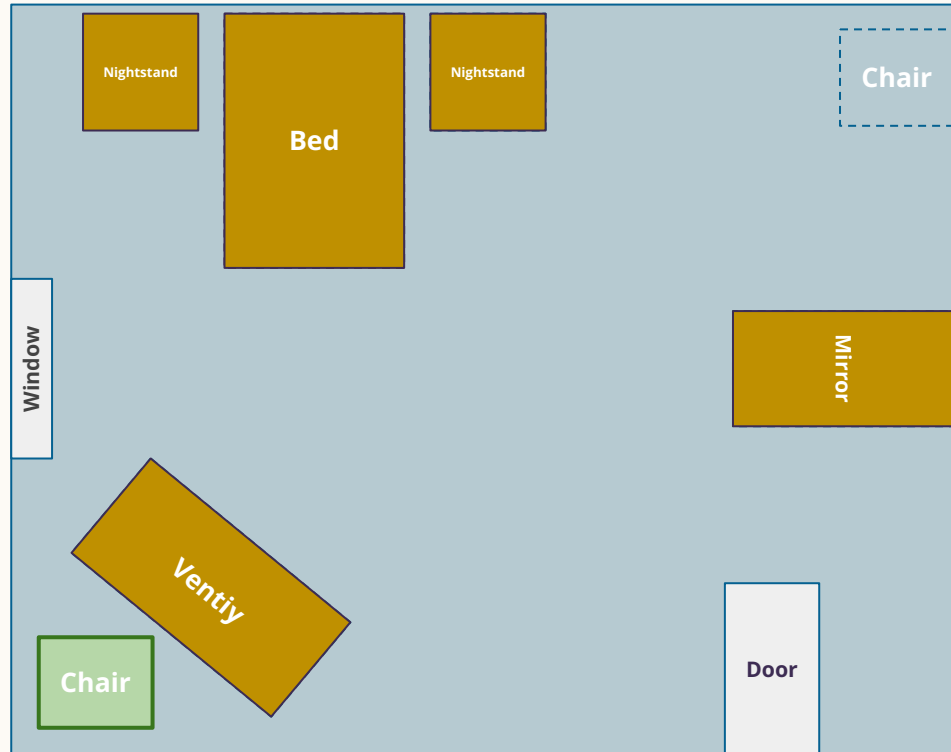

Earth

Wood

Water

Metal

Fire

Correct! The **chair** is now in a position that allows for open space around it and energy flow (chi).

Next

**Congrats!** You got \_\_ / 5 on your first attempt & you successfully collected all 5 key elements.

## Prizes

Earth

Wood

Water

Metal

Fire
